In-person class/didn't use online resources
NA
I liked that culture of the class.
The canvas page for this course was very organized and simple to use. I had no trouble finding the resources or assignments I was looking for.
well put together and well organised
Not much of this course was online but the professor always provided digital resources and updates and met with students online when needed.
Online course was very helpful the teacher said we do not need the textbook and can just use the slides and he was right as they were very infomative
Canvas is very very organized and easy to navigate. The resources are all very straightforward.

What were the strengths of this course and/or this instructor?

Comment
Was open to any questions and took feedback very seriously. Open to any input which made him a very approachable person
he knows how to engage the class well
Enthusiastic and had stories that were related to the course in some way.
NA
he was engaging and fun to learn from
My professor was definitely very knowledgeable on the subject, which made the class more engaging. He was also very enthusiastic and positive which created a great learning environment.
applications to the real world, and understandability. The intuitive nature of this course and how concepts were taught to be understood, not simply memorised and retained.
When we had class, the time was used efficiently whilst also promoting discussion about current events and market news. Homework was useful in helping understand concepts as well as preparing for exams.
The instructor had a lot of real world experience and knew what he was talking about
Da Huang is very passionate and offers a lot of real world examples, information, and connects the class to the current finance industry.

What could the instructor do to make this course better?

Comment
Unsure
more questions to help practice
Sometimes the material we were tested wasn't provided on the slideshow/review given.
NA
n/a
I think that the instructor should make more in-class assignments/activities. He made it very lecture based and went through the material very quickly which made it very easy for me to lose track and start focusing on something else. If there were more interactive things during class, it would make the class better and would strengthen my knowledge of the material.
more time during the exams
Despite maybe being outside the scope of this course, I wish we had gone more into financial derivatives and their role in financial markets.
Have more qualified TAs
Include more details in the slides on how to solve equations and more practice problems
Some of the content is "empty" and by that I mean I learned it because it was taught, but not necessarily because I needed to know it for the class. I felt the exams were well balanced, but they also had a very narrow breadth which meant a lot of what I studied and knowledge I knew couldn't be reflected in my exam.

Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

Comment

I think that the beginning of the class being more geared toward the news and realistic situations was a change from most classes and was very insightful

he knew how to make students understand concepts

Enthusiasm made me feel like I should be more engaged.

NA

He know what he is talking about and is good applying the material

Like I said, my professor was extremely knowledgable and positive, which made for a great learning environment. He really resonated with his students as he was a student not that long ago, so he had a lot of sympathy and provided a large amount of time outside of class to meet with him. I think that he was truly a great professor and very excited about teaching the subject, I just think that some people come into the class knowing nothing about Investments and he just assumed that we already knew some stuff, which made it easy for me to get lost and lose track. otherwise, great professor and great guy.

hes a very good teacher explains concepts very well and teaches very well. relates everything to the real world.

Perhaps a project based assignment would be good.

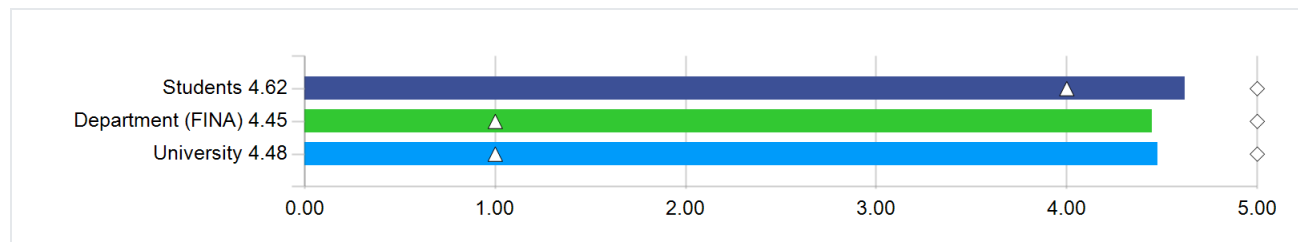

One thing the instructor could improve on is maybe changing up class so it isn't always a lecture

Da Huang calls on anyone who raises their hand and holds many office hours where anyone can show up (as well as plenty of TA hours being available.

Student Self-Assessment of their Eff ort to Achieve Course Outcomes

What I could have done to make this course better for myself.

Comment
practice more questions
Studied more for exams and sometimes pay better attention in class
NA
I could have looked over the slides more often.
I could have taken more actual notes during class instead of just relying on the slide shows so that the information would stick better in my mind and I wouldn't be cramming before exams.
Attend more office hours that he held.
started an asynchronous project related to the course to deepen my understanding and apply what I learnt.
Be more engaged and studied more outside of class to get a better grasp of conceptual ideas.
Studied more before I took the exams and was more proactive
I could have reviewed materials more even though most weeks we don't have an actual assignment to complete. with class twice a week and homework about every other week I let myself get out of the rythym too often and should have done consistent review to stay comfortable.

Canvas is very very organized and easy to navigate. The resources are all very straightforward.

03. How often did you attend this class both in-person and remotely?

80-100%

04. The number of hours per week I devoted to this course outside scheduled class meeting times.

0-2

05. What I could have done to make this course better for myself.

I could have reviewed materials more even though most weeks we don't have an actual assignment to complete. with class twice a week and homework about every other week I let myself get out of the rythm too often and should have done consistent review to stay comfortable.

09. What were the strengths of this course and/or this instructor?

Da Huang is very passionate and offers a lot of real world examples, information, and connects the class to the current finance industry.

10. What could the instructor do to make this course better?

Some of the content is "empty" and by that I mean I learned it because it was taught, but not necessarily because i needed to know it for the class. I felt the exams were well balanced, but they also had a very narrow breadth which meant a lot of what i studied and knowledge I knew couldn't be reflected in my exam.

11. Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

Da Huang calls on anyone who raises their hand and holds many office hours where anyone can show up (as well as plenty of TA hours being available).

12. What is your overall rating of this instructor's teaching effectiveness?

Almost Always Effective
